The smoke detector shall be capable of sensing visible or invisible particles of combustion and shall meet the specifications and be installed as provided in the current edition of the State Fire Code, and in the manufacturer’s specifications. When activated, the smoke detector shall provide an alarm suitable to warn the occupants of the danger of fire.

(b) The owner of each dwelling described in subsection (a) of this section shall provide, install, and replace the operational smoke detectors required by this section. To assure that the smoke detector continues to be operational in each dwelling described in subsection (a) of this section which is not occupied by the owner of the dwelling, the tenant in any dwelling shall perform routine maintenance on the smoke detectors within the dwelling.

(c) Where a dwelling is not occupied by the owner and is occupied by an individual who is deaf or hard of hearing, the owner shall, upon written request by or on behalf of the individual, provide and install a smoke detector with a light signal sufficient to warn the deaf or hard of hearing individual of the danger of fire.

(3) In either a common area where the general public has access or all rooms in which a person will be sleeping that are adjoining to and directly below and above all areas or rooms that contain permanently installed fuel-burning appliances and equipment that emit carbon monoxide as a byproduct of combustion located within all apartment buildings, boarding houses, dormitories, long-term care facilities, adult or child care facilities, assisted living facilities, one- and two-family dwellings intended to be rented or leased, hotels, and motels.

(g) All single station carbon monoxide detectors with a suitable alarm or a combination smoke detector and carbon monoxide detectors shall be hardwired into an alternating current (AC) electrical source, with battery backup, when installed in all newly constructed apartment buildings, boarding houses, dormitories, hospitals, long-term care facilities, adult or child care facilities, assisted living facilities, one- and two-family dwellings intended to be rented or leased, hotels, and motels.

(i) Carbon monoxide detectors shall be installed in every public or private school or daycare facility that uses a fuel-burning heating system or other fuel-burning device that produces combustion gases. A carbon monoxide detector shall be located in each area with a fuel-burning heating system or other fuel-burning device that produces combustion gases.

(j) Any person installing a carbon monoxide detector in a residential unit shall inform the owner, lessor, or the occupant or occupants of the residential unit of the dangers of carbon monoxide poisoning and instructions on the operation of the installed carbon monoxide detector.

(k) When repair or maintenance work is undertaken on a fuel-burning heating or cooking source or a venting system in an existing residential unit, the person making the repair or performing the maintenance shall inform the owner, lessor, or the occupant or occupants of the unit being served by the fuel-burning heating or cooking source or venting system of the dangers of carbon monoxide poisoning and recommend the installation of a carbon monoxide detector.

(l) Any person who violates any provision of this section is guilty of a misdemeanor and, upon conviction thereof, for a first offense, shall be fined \$250. For a second offense, the person is guilty of a misdemeanor and, upon conviction thereof, shall be fined \$750. (n) A violation of this section may not constitute a defense in any civil action or proceeding involving any insurance policy.

(o) Nothing in this section shall be construed to limit the rights of any political subdivision in this state to enact laws imposing upon owners of any dwelling or other building described in subsection (a) or (f) of this section a greater duty with regard to the installation, repair, and replacement of the smoke detectors or carbon monoxide detectors than is required by this section.

§15A-10-13. Use of live trees in public buildings; exceptions.

Notwithstanding any other provision of law to the contrary, live trees may be displayed in public buildings if the trees are decorated with U/L approved miniature lights, or are not decorated with electrical lights. §15A-10-14. Safety standards for bed and breakfast establishments; findings.

(a) *Findings.* — Bed and breakfast establishments provide a unique and important contribution to the state, allowing visitors the opportunity to enjoy many of the aspects of our communities and state not available at hotels and motels, and often provide vacationers access to overnight accommodation in areas of this state that would not otherwise be available. These operations continue to grow in number and importance in our state's economy and must be promoted and encouraged by state and local government. Most of these facilities are older residences being converted to this use, and in many cases have architectural and historical significance; and, as with most small businesses, are begun with limited capital available for investment. Any fire safety code standards applicable to these facilities must be sensitive to this distinction and avoid placing a large financial burden on persons operating or planning to operate these facilities. Further, the personal safety of those who live in and visit these facilities is of paramount importance and requires that consideration be made to assure that adequate safety requirements are placed on these facilities to provide for the safety of visitors, residents, and, in an emergency, responding firefighters and rescue workers.

(b) *Definition.* — For the purposes of this section, the term "bed and breakfast establishment" means a building occupied as a one-family dwelling unit that provides sleeping accommodations and breakfast to transient guests for a single fee and does not offer more than six guest rooms to no more than 12 guests.

(c) *Fire code standards.* — Notwithstanding any provision of this code to the contrary, every bed and breakfast establishment shall be exempt from provisions of fire safety code requirements which are contrary to the following standards:

(1) Each bed and breakfast shall have operational smoke alarms in all common areas, guest rooms, and hallways, and heat detectors as otherwise required by this code or rule of the Fire Commission. Battery-powered smoke alarms shall be permitted where the establishment has demonstrated that the testing, maintenance, and battery replacement procedures will ensure reliable power to the smoke alarms.

Notwithstanding any provision of this code to the contrary, no smoking will be allowed inside a bed and breakfast establishment.

(2) Each bed and breakfast shall have operational hard-wired, battery-powered, or plug-in emergency lighting that indicates available means of egress. Battery-powered or plug-in emergency lighting devices shall be permitted where the establishment has demonstrated that the testing, maintenance, and battery replacement procedures will ensure reliable power to the emergency lighting devices.

(3) The State Fire Marshal shall permit bed and breakfast establishments that cannot readily comply with the requirements of a legislative rule, which may mandate the installation of a secondary means of escape or a sprinkler system, one year per floor of the establishment to comply with the requirements.

(4) All other provisions of the state fire safety code not inconsistent with this section and rules promulgated pursuant to subsection (d) of this section are applicable to bed and breakfast establishments.

(d) *Legislative rules.* — The State Fire Commission shall promulgate or amend an existing legislative rule, in accordance with the provisions of §29A-3-1 *et seq.* of this code, to effectuate the provisions of this section. The rule shall include a mechanism for the Fire Marshal to grant individual variances to bed and breakfast establishments which cannot otherwise meet provisions of the state fire safety code due to the historic and architectural significance of the establishment, with due consideration of the economic limitations inherent in the operation of this type of small business.

(e) *Historic preservation review.* — The owner of a bed and breakfast may request the historical preservation section of the Division of Culture and History, pursuant to §15A-1-8 of this code, to consult with the owner and provide a recommendation to the Fire Marshal regarding the historic character of the structures used or proposed to be used as a bed and breakfast and any objections or concerns regarding any renovations or other changes required by the Fire Marshal. If an appeal regarding a decision made by the Fire Marshal is made as provided by §15A-10-18 of this code, the Fire Marshal shall consider the recommendation of the historical preservation section when making a determination regarding the variance as provided for in subsection (d) of this section.

§15A-10-15. Performance of installation of propane gas systems.

(a) Notwithstanding any statutory or regulatory provisions to the contrary, any person who installs, fuels, maintains, or services any fuel gas system to a one- or two-family dwelling shall comply with rules promulgated by the Fire Commission relating to fuel gas systems.

(b) This section does not apply to any person who performs this work on a single-family dwelling, owned or leased, and occupied by that person. The personal exemption provided in this subsection is the same as the personal exemption provided in §29-3D-1, *et seq.* of this code.

§15A-10-16. Additional remedies to abate, etc., fire hazards.

(b) Before any such license is denied, limited, suspended, or revoked, however, written notice shall be given to the licensee stating the grounds for such denial, limitation, suspension, or revocation.

(c) An applicant or licensee has 10 working days after receipt of the order denying, limiting, suspending, or revoking a license to request a formal hearing contesting the denial, limitation, suspension, or revocation of a license under this article. If a formal hearing is requested, the applicant or licensee and the secretary shall proceed in accordance with the provisions of §29A-5-1 *et seq.* of this code.

(d) If the license is denied, limited, suspended, or revoked, the license or certification holder shall cease and desist practices of their profession as of the effective date of the denial, limitation, suspension, or revocation. Any administrative appeal of such denial, limitation, suspension, or revocation shall not stay the denial, limitation, suspension, or revocation.

(e) A party aggrieved by a decision by the State Fire Marshal may appeal such final decision to the Office of Administrative Hearings, pursuant to §15A-9-1 *et seq.* of this code, or may choose independent informal dispute resolution as set forth in this article.

§15A-10-18. Independent informal dispute resolution.

(a) A license or certification holder adversely affected by an order or citation of a deficient practice issued pursuant to this article may request the independent informal dispute resolution process. A license or certificate holder may contest a cited deficiency as contrary to law or unwarranted by the facts or both.

(b) The State Fire Marshal has the authority to establish conference panels composed of three persons of the licensed or certified skill to decide the outcome of the independent informal dispute resolution process. One member shall be selected by the State Fire Marshal, one member shall be selected by the licensee or certificate holder, and one member shall be selected by agreement of both. If a vacancy occurs on the panel, the replacement for that member shall be made by the original individual who had selected such member. The members of the panel shall serve without compensation.

This panel shall hear the matter and render a decision. The licensee or certificate holder may not be accompanied by counsel during the independent informal dispute resolution conference.

(c) Upon appeal of a decision rendered by the State Fire Marshal, the panel shall hold an informal conference affirming, modifying, or vacating an order of the State Fire Marshal, or issuing an order in the name of the State Fire Marshal. The panel shall forthwith notify the parties of its decision and as soon as practicable send written notices of its decision to the parties. The decision of the panel is final. The independent informal dispute resolution process is not a formal evidentiary proceeding.

§15A-10-21. Tax on insurance companies.

Every insurance company doing business in this state, except Farmers' Mutual Fire Insurance companies, shall pay to the State Insurance Commissioner annually on or before March 1, in addition to the taxes now required by law to be paid by the companies, one half of one percent of the taxable premiums of the companies on insurance against the hazard of fire and on that portion of all other taxable premiums reasonably applicable to insurance against the hazard of fire which are included in other coverages, and received by it for insurance on property or risks in this state during the calendar year next preceding as shown by their annual statement under oath to the insurance department.
